

Learning Tree After School Enrichment Program

The purpose of the Learning Tree program is to offer opportunities for children to access academic, enrichment, social and recreational experiences in an after-school environment that is safe, drug-free and supervised.

GOALS

- To provide academic enrichment in core academic subjects, such as reading, mathematics, and science
- To offer students youth development activities, drug and violence prevention programs, counseling programs, art, music, physical education/fitness programs, character education, and technology education programs
- To offer families of students opportunities for literacy and related educational development
- To support college preparation and workforce readiness efforts for all students

The Learning Tree After School Program provides a nutritious snack, homework time, and physical recreation. In addition, children participate in academic enrichment and reinforcement of daytime learning through FUN, HANDS-ON activities such as crafts, science exploration, math & reading , drama, literacy, character development, fitness & nutrition, and community service.

There is a 15:1 students to teacher ratio.
